Client Profile

One of the largest banking and financial services organizations headquartered in London with its focus on investment banking services, corporate finance and more.

Situation

Client was on the look-out for a trusted and competitive vendor with experience in asset management and the firm was presented with KGfSL's Back-office and General Accounting solution designed to manage business more efficiently.

Decision to go with KGfSL's Dolphin:

After evaluating all the options, client decided to go with KGfSL

Core Differentiators were:

- ➔ The inherent architecture of the system was supportive enough for the firm to build upon interfaces to its group system
- ➔ Modularity of the architecture to enable phased implementation
- ➔ Complete commitment from the team of professionals
- ➔ Ability of the system to handle huge volumes of data with lesser processing time
- ➔ Comparatively lower cost
